come sufficiently close to it to bring about all that we require. The theory of my scheme, your Excellency, is that boys should come and pass before such a board as I have spoken of in anatomy, physiology, chemistry, and elementary surgery. They must study at these subjects for two years before being admitted to the examination. They must produce a certificate of their study at this hospital or some other equally constituted hospital, and the study must be carried on under some legally qualified man. I would propose also that they wast previously have studied at this or some other recognise school, so that there may be some assurance that they understand English or whatever other language may be decided on. My boys understand English thoroughly as regards reading it but I must acknowledge the kindness and forbearance with which my brothren have overcome that difficulty of expression which must be more or less present in all who attempt to learn a foreign language, without practice in speaking it and they have got at that knowledge which lies behind. These lads having come here now, I propose at the end of the next two years they should go to Shanghai. My object is to ensure the disinterestedness and thoroughness of the examination. An examination by persons havng nothing to do with, in some instances perwill be perfectly impartial. Having passed that they will be outitled to this certificate, but until the second examination is passed the certificate is held in the custody of the hospital. Your Excellency will observe that all precautions have been taken to prevent fraud in connection with these. On this side there the candidate's photograph, and full parti-

IN SUMMARY JURISDICTION.

BEFORE MR. JUSTICE RUSSELL. A. HUMALDI V. S. MORALES \$36.66.

Mr. Mossop for the defendant. This case was partly heard the previous Friday, being a claim on the part of Rumaldi, an Italian seaman, against the defendant, the master of the Chinese barque Kwong Fong for balance fused to pay the amount as he said the plaintiff had shipped with him as an able seaman, and had proved himself incapable to do the work he shipped for. He had in consequence disrated the work. The defendant had received an advance to the Shipping Office for the man to be discharged there in the usual way, and the circum-

Mr. Sayle, of Mesers. Rose & Co., stated that Mrs. Rochs came to his establishment and purchased the bedstead and mattrass, stating that she had her father's authority to do so, and he would be responsible for it. When the amount was charged to Mr. Baotista, however, he repudiated his liability, and denied having authorised his daughter to get the bedstead.

His Lordship said it seemed to him that the defendant was trying to take advantage of fraud of his wife's, who had obtained goods on a false representation. The defendant said it was not so, for Baptista had not only told his wife to get the bedstead

but had told him also. His Lordship said the plaintiff had given credit to Mr. Baptista, and there was no formal vidence of repudiation. Mr. Sayle said he had Mr. Baptista present

His Lordship said that would not do in this asse. This was to the offert that Mr. the agreement, had made inquiries of the police authorities at Singapore as to the they informed him that the only engagement Mr. Caldwell for the plaintiff, Mr. Webber was constituted by Mr. Spooner signing his name to a printed form, of a kind used for all their police agreements, which was filled in with the description of the particular person, &c., a tion against Spooner. He (Mr. Birkenshaw) His Lordship further adjourned the case for a was also informed that Spooner entered the Singapore Police Force on the 21st April, 1885, which was the date of the agreement he signed. Mr. Deacon asked his Worship to accept this cortificate as evidence of the nature of his client's agreement in the absence of the original document. Mr. Descon then proceeded to argue that there was no case made out of a reasonable presumption that defendant had committed the offence named in the warrant, and he said he thought he could show satisfactorily that there was before the court no evidence which raised a presumption upon which his Emanuel, admitted being a straggler from his Worship could act, and that being so the defendant must be discharged. Of course if the Ordinance could be made retrospective in its
